

## Ring sawing machine for the fully automatic, order-related sawing process of ring blanks in various dimensions

Equipped with a loading magazine, which can either has space for 36 or 54 tubes of different precious metal alloys with different dimensions for the order-related sawing process.

### Technical specifications:

Saw blade speed	max. 2.500 rpm
Magazine	36 or 54 positions, transportable
Bar length	max. 400 mm
Outer bar diameter	min. 17 mm / max 32 mm
Unloading unit	max. 6 unloading bars
Chip recovery	3 collecting containers for different alloys
Dimensions L x W x H	1.655 x 900 x 1.694 mm
